

Environmental performance

You need clear evidence to support your environmental credentials. We can provide it.

Since 1912, Steelcase has been committed to continually reducing the environmental impacts of its products and activities on a global scale, by constantly seeking more effective ways to conserve resources, prevent pollution and nurture environmental consciousness in its people every day.

During High density storage development process we evaluated the environmental aspects of the products at each stage of its life cycle: materials extraction, production, transport, use and reuse, until the end of its life.

End of life

Up to 96% recyclable by weight.
100% recyclable cardboard for packaging.
Quick and easy disassembly.
Plastic parts clearly labelled for easy sorting and effective recycling.

Use

Designed for a long product life.
Replaceable parts.
Maintenance information is available on steelcase.com.

Transport

Manufactured close to customers, in Durlangen (Germany).

Material

20% recycled content by weight.
PVC-free.
45% recycled cardboard in packaging.
Water-based inks without solvent on packaging.

Production

ISO 14001/ EMAS certification of the Durlangen site (Germany).
No gluing processes.
Powder coat painting: VOC-free and free of heavy metals.
Some of the powder coat painting that does not attach to the product is reused in the painting process.
Waste wood directly reused in the plant's heating system.

Love how you work.®

You require official certifications. We can deliver them.

Product Environmental Profile (PEP). Based on ISO 14021, its purpose is to communicate precise and verifiable information on environmental aspects of the product during its life cycle.

Blauer Engel. This German environmental certification is awarded to products with a low environmental impact.

Indoor Advantage. This product is currently going through the Indoor Advantage Certification process, meaning that the product should meet tough indoor air quality standards.

PEFC. The wooden components are PEFC certified (Programme for the Endorsement of Forest Certification), ensuring that wood originates from sustainably managed forests.

Low Emission

E1. The particle boards comply with the "E1 standard" guaranteeing a low level of formaldehyde emissions.

You care about the end of use of your furniture.

We offer options – be it refurbishing, charitable donation or recycling.

High density storage Working harder for comfort and space

Steelcase

C5606

Why High density storage?

While companies are trying to “right size” their office footprint, workstations tend to reduce in dimensions. High density storage provides a flexible working environment without any compromise on comfort.

High density storage H725mm with open shelf in combination with Fusion Bench, Partito Rail, SOTO™ LED Light, 1+1 organisation tools and Reply task chairs.

High density storage is specifically designed to work harder for the user.

- 1 - With optimised dimensions, it is designed to **extend the workstation** and help structure individual collaborative spaces.
- 2 - High density storage **maintains privacy** and enables users to stay focused due to its subtle space division solution.
- 3 - **Open, High density storage offers comfort and ergonom**y with easy access to everyday materials. Once closed, it leaves a perfectly tidy workstation.

Individual space Ergonomy and comfort

High density storage helps you organise your documents and tools, with the space and support available for whatever objects and information to be stored. Everything stays visible and conveniently close at hand. Highly customisable thanks to add-ons such as suspended file frame or drawer, paper trays, boxes and binder holders, it makes routine tasks easier.

High density storage H1165mm matching with the finishes and handles of Share It storage and shown here in combination with FrameOne desk, Partito screen, SOTO™ LED Light and Think task chair.

Our wide range of 1+1 Organisation tools and internal fittings help you get the best out of the space.

Suspended File Frame and shelves

Power socket and Organisation rail

Drawer

Personal lockable compartment

Statement of Line

Finishes and colour options*

Melamine (for carcass, top, top edge, inner volume and front)

Structured melamine (front)

Wood veneer (top and front)

Paint (rail and pull out base)

Handles and locking

*More options are available in the pricelist.
